

1. My family and I are dedicated listeners to K-love and without their daily support through the air, I would feel a loss of guidance and support from this station. It's nice to go to a place, where you don't have to worry about bad language, and what goes into my daughters ears.

2. There are thousands of listeners affected through the love that K-love has to offer each year. More and more people are tuning in and finding a peaceful place to listen.

3. I believe that the service provided by K-love is in the public interest because it affects so many of us. It is listener supported and I don't think it should be switched to a LPFM where people may have a hard time finding the station or even being able to tune in at all. I know lots of people who listen to K-love and they would also be very upset if this privelege of listening to K-love was evoked. I beg of you to keep K-love and FM stations where they are now. I know I am only one person, but it affects me and my family enough to send in my comment. It may be right for some people, but what about the dedicated listeners who have been enjoying their right to listen to what they would like. I pray that you read my request and take it into careful consideration. Thank you for you time and understanding.
